

LIGHTWEIGHT
FILL CONFERENCE
— 2021 VIRTUAL —

OCTOBER 19-21, 2021

The 2021 Lightweight Fill Conference on a variety of lightweight fill materials will bring together leading Academic Scientists, Researchers, Federal & Local Authorities, Engineers, Designers, Material Suppliers, Contractors, Equipment Manufacturers to come together for an interdisciplinary platform for the presentation of advances and research results in the fields of lightweight fill materials in their construction projects.

A VIRTUAL CONFERENCE

Connecting the Lightweight Fill Markets

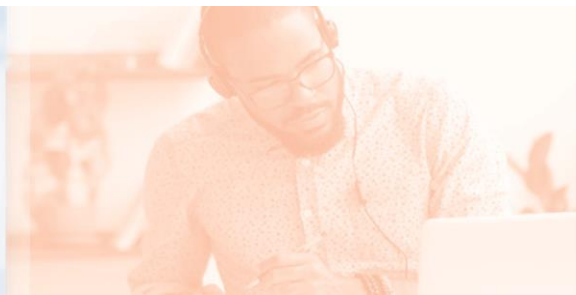

100% of the Conference net proceeds will be donated to the ASCE G-I Student Fund. The Student Fund helps geotechnical engineering students attend Geo-Congress and supports student competitions!

A VIRTUAL CONFERENCE

Connecting the Lightweight Fill Markets

- EARN PDH CREDITS
- NO TRAVEL
- NO HOTEL
- NO “OUT OF OFFICE” EXPENSES
- Network with Local and International contacts on Lightweight Fill Materials
- A dynamic, convenient and cost-efficient way to gain some valuable knowledge
- Conference is accessible across all devices

- Attending the Lightweight Fill Conference only requires an internet connection. Attending the event will permit you to network with a very broad audience.
- Network with multiple people within the same organization and new delegates that would otherwise be limited by time, travel, and cost constraints.
- Earn PDH Credits by attending educational sessions.
- Visit exhibitors throughout the conference.
- Win prizes and increase your chances by gaining points. Points are gained by attending sessions and visiting exhibits.
- **100% of the Conference net proceeds will be donated to the ASCE G-I Student Fund.** The Student Fund helps geotechnical engineering students attend Geo-Congress and supports student competitions.

WHY ATTEND?

HOW DOES A VIRTUAL CONFERENCE WORK?

Like a physical show, attendees can attend educational sessions and visit exhibits to gain valuable information and access to new products, services and suppliers.

- **High quality education:** Just like an in-person conference, the Lightweight Fill Conference will feature education from top academia and industry professionals through live sessions, pre-recorded session, sponsored sessions and Lightweight Fill Conference Campfires
- **Networking:** Meet industry professionals in and out of their exhibits, network with other attendees throughout the conference, in network lounges, and exhibits.
- **Exhibit/Sponsor Halls:** in the form of several exhibit halls and exhibitors there to promote their products, equipment and services.
